

2004 Annual Meeting - Oregon Chapter of The Wildlife Society

“Bridging the Gap: Integrating Wildlife Science, Management, and Policy”

The Riverhouse Resort Lodge - Bend, Oregon
9-13 February, 2004

Call for Papers

Paper presentations will follow the Plenary Session on Wednesday afternoon and continue through Friday at noon. You are invited to submit abstracts for presentations to any of the sessions listed below **by 1 December 2003**. At least twelve of these sessions will be held at the annual meeting. Presentations will be scheduled for 30 minutes, which will include an introduction of the presenter, time for questions, and one minute at the end of each presentation to allow participants time to move among concurrent sessions. There will not be published proceedings from these sessions. Students are especially encouraged to submit papers and posters.

Please submit the following information with each abstract:

- 1) Lead author name, affiliation, mailing address, phone and fax numbers, and e-mail address
- 2) Names, affiliations, and contact information of additional authors
- 3) Session for which the abstract is submitted (must be one of the following):

<i>SESSION TOPIC</i>	<i>MODERATOR</i>
<i>Carnivores</i>	<i>Autumn Larkins and Camryn Lee</i>
<i>Bats</i>	<i>John Hayes</i>
<i>Biological Diversity in the Pacific Northwest</i>	<i>Betsy Glenn</i>
<i>Integrating Science and Management</i>	<i>Ed Arnett</i>
<i>Partnerships for Wildlife Habitat Conservation</i>	<i>Bruce Campbell</i>
<i>Restoration of Wildlife Populations</i>	<i>Matt Broyles</i>
<i>Wildlife Legislation and Policy</i>	<i>Warren Aney</i>
<i>Historical Perspectives</i>	<i>Mike Pope</i>
<i>Fire Ecology</i>	<i>Lauri Turner</i>
<i>Urban Wildlife Management</i>	<i>Holly Michael</i>
<i>Effects of Human Access on Wildlife</i>	<i>Les Naylor</i>
<i>Avian Ecology</i>	<i>Laura Todd</i>
<i>Large Scale Planning</i>	<i>Richard Schmitz</i>
<i>Open</i>	<i>Matt Mahrt</i>

4) ABSTRACT - You **must** use the following guidelines (see example); please note that the abstract you submit will be the final used in the Annual Meeting Program.

The deadline is 01 December 2003 for submitting abstracts for the paper and poster sessions for the 2004 Oregon Chapter annual meeting. Authors will be notified about the selection of their presentation by 19 December 2003. Abstracts should be 100 words or less and include the information listed below in "Abstract Guidelines." We ask that both paper and poster presenters register for the meeting. Early registration deadline is 17 January 2003. Please contact the Oregon Chapter TWS (Kat Beal 541-937-2131) if you have questions or special requests regarding registration. Please view the website (<http://fw.oregonstate.edu/TWS>) for the most current session, agenda and registration information.

Abstract Guidelines and Format Example

Please submit your abstract electronically to Mark Penninger at the electronic address below.

If you do NOT have access to email, then submit your abstract on a floppy disk or CD with a hard copy; clearly label both with pertinent ID information including name of lead author, abstract title, session, and lead author contact phone number and e-mail address, if Oregon or National TWS member, and whether the presenting author is a student, and if so, whether he or she wants the presentation judged.

The person submitting the abstract should provide a separate, detailed list of information for each author, including: place and full address of employment, e-mail, phone number, and what authors are students. Place an asterisk next to presenting author. In addition, please provide complete contact information for presenting author.

- Use WordPerfect or Microsoft Word
- Single space
- No hard returns within a paragraph
- No more than 100 words (excluding abstract title and author information)

Format Example:

Jordan, Jess*¹ and John P. Hayes². Bat activity along two third order streams in the HJ Andrews Experimental Forest. ¹Department of Fisheries and Wildlife, Oregon State University, Corvallis, OR, 97331; ²Department of Forest Science, Oregon State University, Corvallis, OR, 97331.

Wood in streams has been shown to be critical for aquatic organisms, however few studies have investigated the importance of wood in streams to terrestrial organisms. We measured bat activity over three habitat types along two third order streams in the HJ Andrews Experimental Forest. Bat activity was measured using Anabat II detectors and analysis software. Twelve randomly selected sites were sampled twice resulting in 24 detector nights.

Activity was consistently greater over pools than riffles. These data emphasize the importance of pools for bats and suggest that more structurally complex stream conditions may enhance quality habitat for bats.

Submit concurrent paper session abstracts by **01 December 2003** to:

Mark Penninger
2104 Leo Lane
La Grande, Oregon 97850
E-mail abstracts to:
markp@eoni.com

Authors will be notified about the selection of their presentation by 19 December 2003.

The final meeting agenda with details of the sessions, session topics, and presenter information will be posted on the Oregon Chapter web page (<http://fw.oregonstate.edu/tws>) as the meeting approaches.
